PLEASE READ: IMPORTANT INFORMATION

- The score information displayed on this report is preliminary and does not constitute an official score report. Cisco seeks to assure the validity of exam scores by analyzing exam responses for consistency. Your score may be classified as indeterminate if it is at or above the passing level and Cisco cannot certify that it represents a valid measure of your ability as sampled by the exam. After review and analysis, your score will either be:
 - a) Classified as "valid" and your official exam result will be reported at www.pearsonvue.com/authenticate. You can view exam results by using the registration and validation numbers displayed in the left column within 72 hours of your exam session.
 - b) Classified as indeterminate and you will be advised of the options for retaking the examination.
- If your passing score is validated, you will be eligible to take the CCIE lab / practical exam. Lab / practical exams must be attempted within 18 months of passing the written exam, and can be scheduled online at: tools.cisco.com/CCIE/Schedule_Lab/CCIEOnline. To register for a lab / practical exam, you will need your Candidate ID number to register. Contact the testing vendor if you do not have a Candidate ID on this report.
- Your score may take up to 10 days to register in the CCIE database. Verify that the candidate ID number used on your most recent written exam matches the ID number used in the past. If different, you may have inadvertently created a new record in the CCIE database. Please contact the Certification Support Center for assistance at: www.cisco.com/go/certsupport
- The Cisco 360 Learning Program can prepare you for the CCIE lab exam. The program offers a comprehensive, blended-learning curriculum designed to accelerate competency and build the skills needed to achieve a CCIE certification. The program is offered for CCIE R&S and Collaboration tracks. For more information, visit www.cisco.com/go/360
